Project submission REQUIREMENTS
Python Project

- You program must execute using the Python 3.4. GUI - IDLE

- You will create a zip'ed file named as outlined below:

  <last name><first initial><middle initial>##.zip

  For example: arthurjd01.zip

- Your "zip" submission must contain:
  - Source code**
  - A README file** containing:
    - Name
    - Student ID Number
    - any particulars that I need to know to run your program
  - A file containing the output generated by running your python program**

- *Hard copies of all items starred (**) above must also be handed in during class on the due date.*

- Your "zip" MUST NOT contain any directories

- Upload your file to scholar.vt.edu:
  - Access scholar.vt.edu through your browser
  - Login using your PID & Password
  - Select class tab
  - Select "Assignment" (on left hand side)
  - Select appropriate assignment title
  - Select "Add Attachment" … and then upload your file

  - **Try uploading a file before the due date… you can always delete it**
